

Product Change Notification

Product affected: MMS 228 T slide switches
Change of actuator material

Effective date: October 2007 - production date

Details:

We will change the actuator material of the MMS 228T slide switch from white Nylon PA 46 to black LCP. This will enable the switch to resist to a higher soldering temperature of 260°C +/-3°C for 5 to 6 seconds max.

<u>Affected part</u>
MMS 228 T

knitter switch, August 2007
