### **Bourns® Circuit Protection Division Expands Range of Ceramic PTC Thermistors**

Bourns® Circuit Protection Division has added a quad-in-line package to its range of Ceramic Positive Temperature Coefficient (PTC) thermistors. The component combines four resistance-matched Ceramic PTCs together in a single ceramic housing. At present a 50 ohm component is available as a standard; other resistance values are available upon request.

A data sheet for the model [CMF-RQ50-0](#) has been added to the Bourns website at [www.bourns.com](http://www.bourns.com).

Samples are available upon request.
